

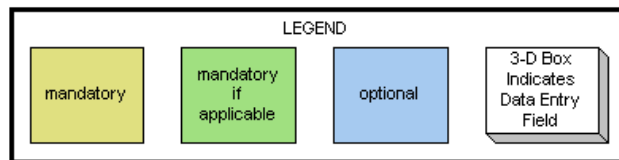

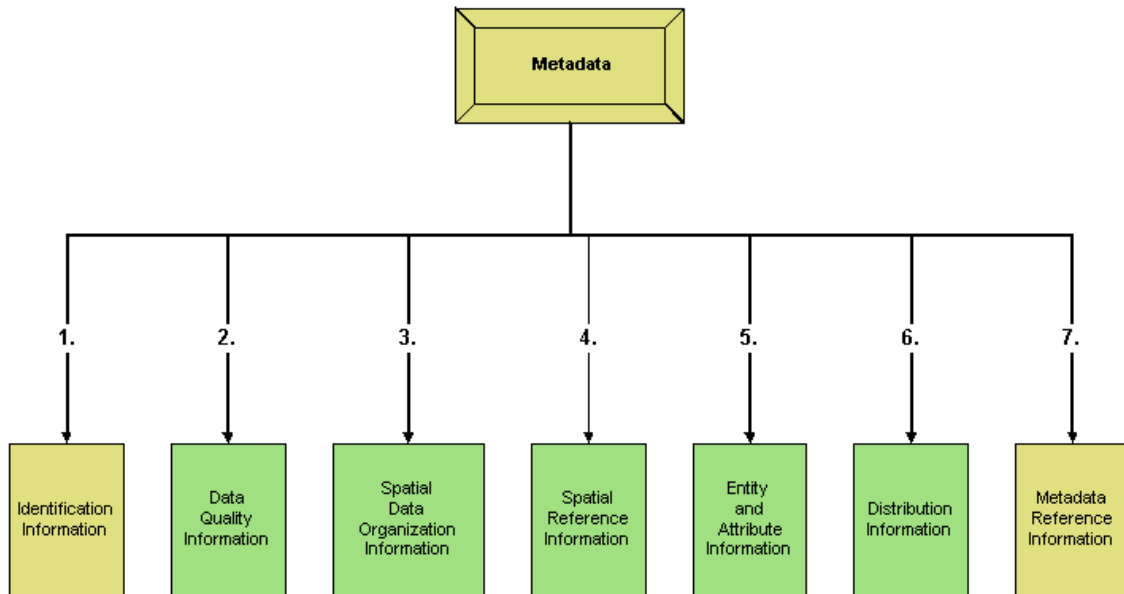

Graphical Representation of: The Federal Geographic Data Committee's Biological Data Profile

for use with **FGDC-STD-001.1-1999**

Prepared by Susan Stitt, Center for Biological Informatics, USGS
In conjunction with the Federal Geographic Data Committee

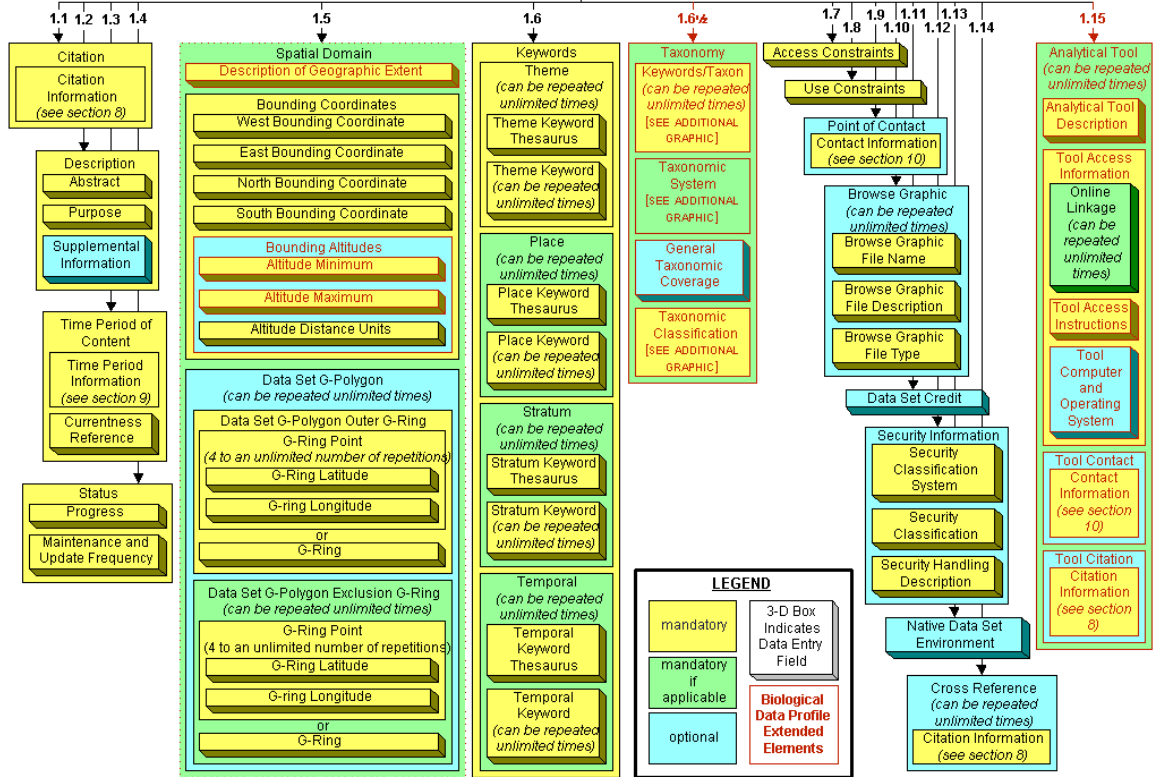

Section 1

Identification Information 1.

FGDC-STD-001.1-1999
Content Standard for Digital Geospatial Metadata, 1998
Part 1: Biological Data Profile, 1999

Identification Information

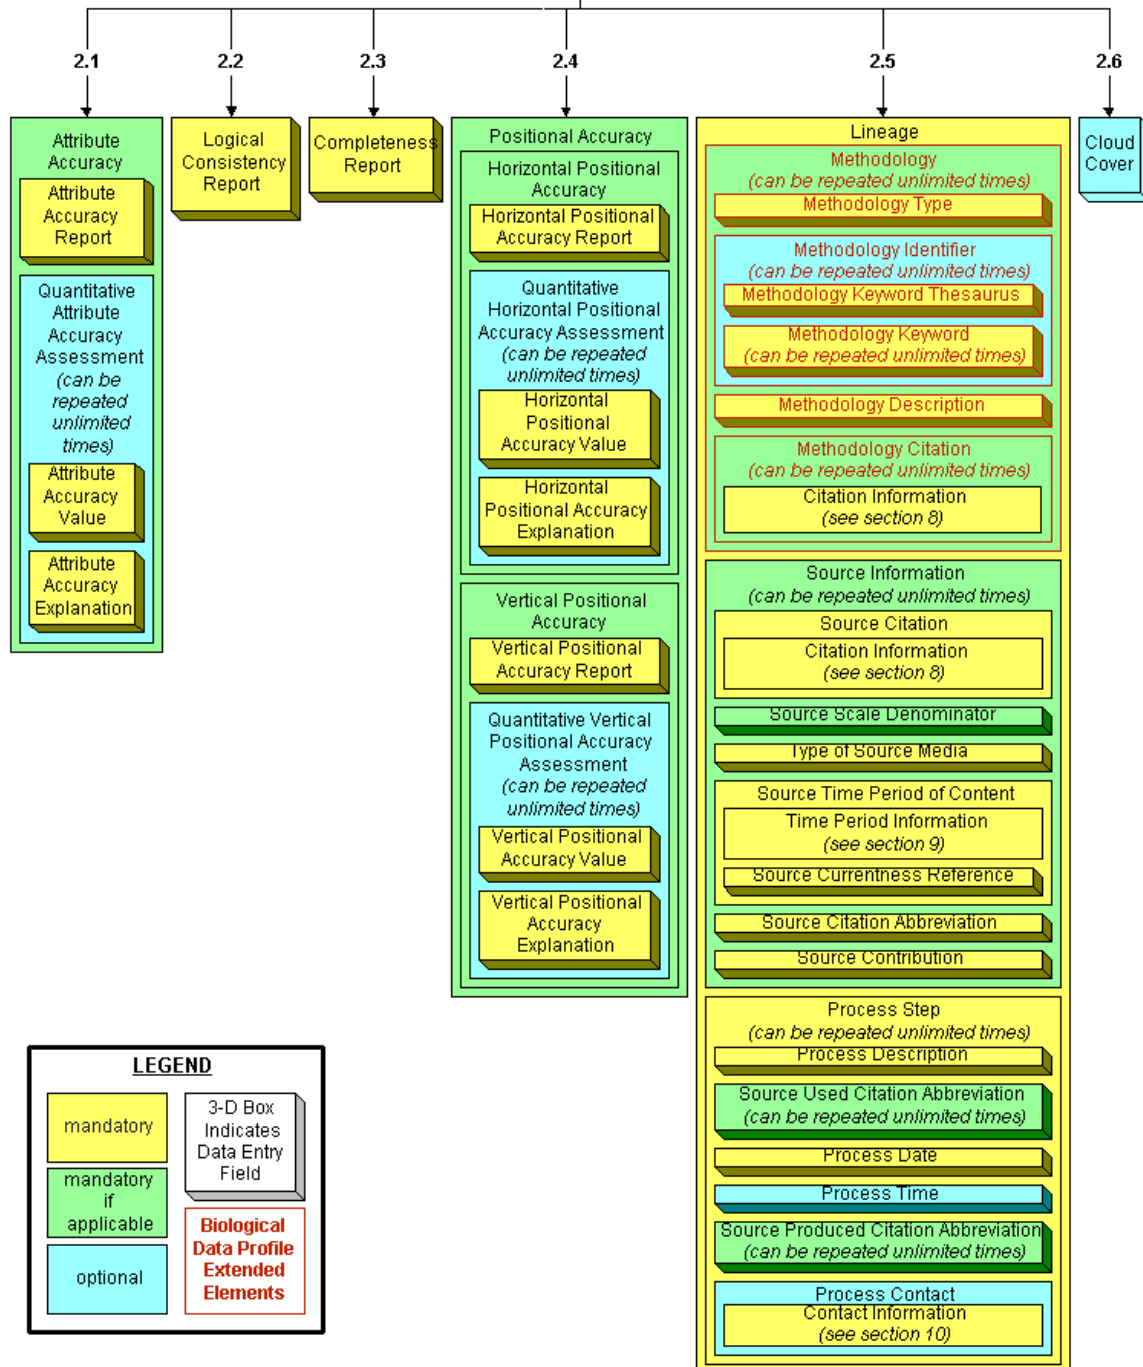

Section 2

Data Quality Information

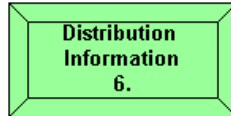

Data Quality Information 2.

FGDC-STD-001.1-1999
Content Standard for Digital Geospatial Metadata, 1998
Part 1: Biological Data Profile, 1999

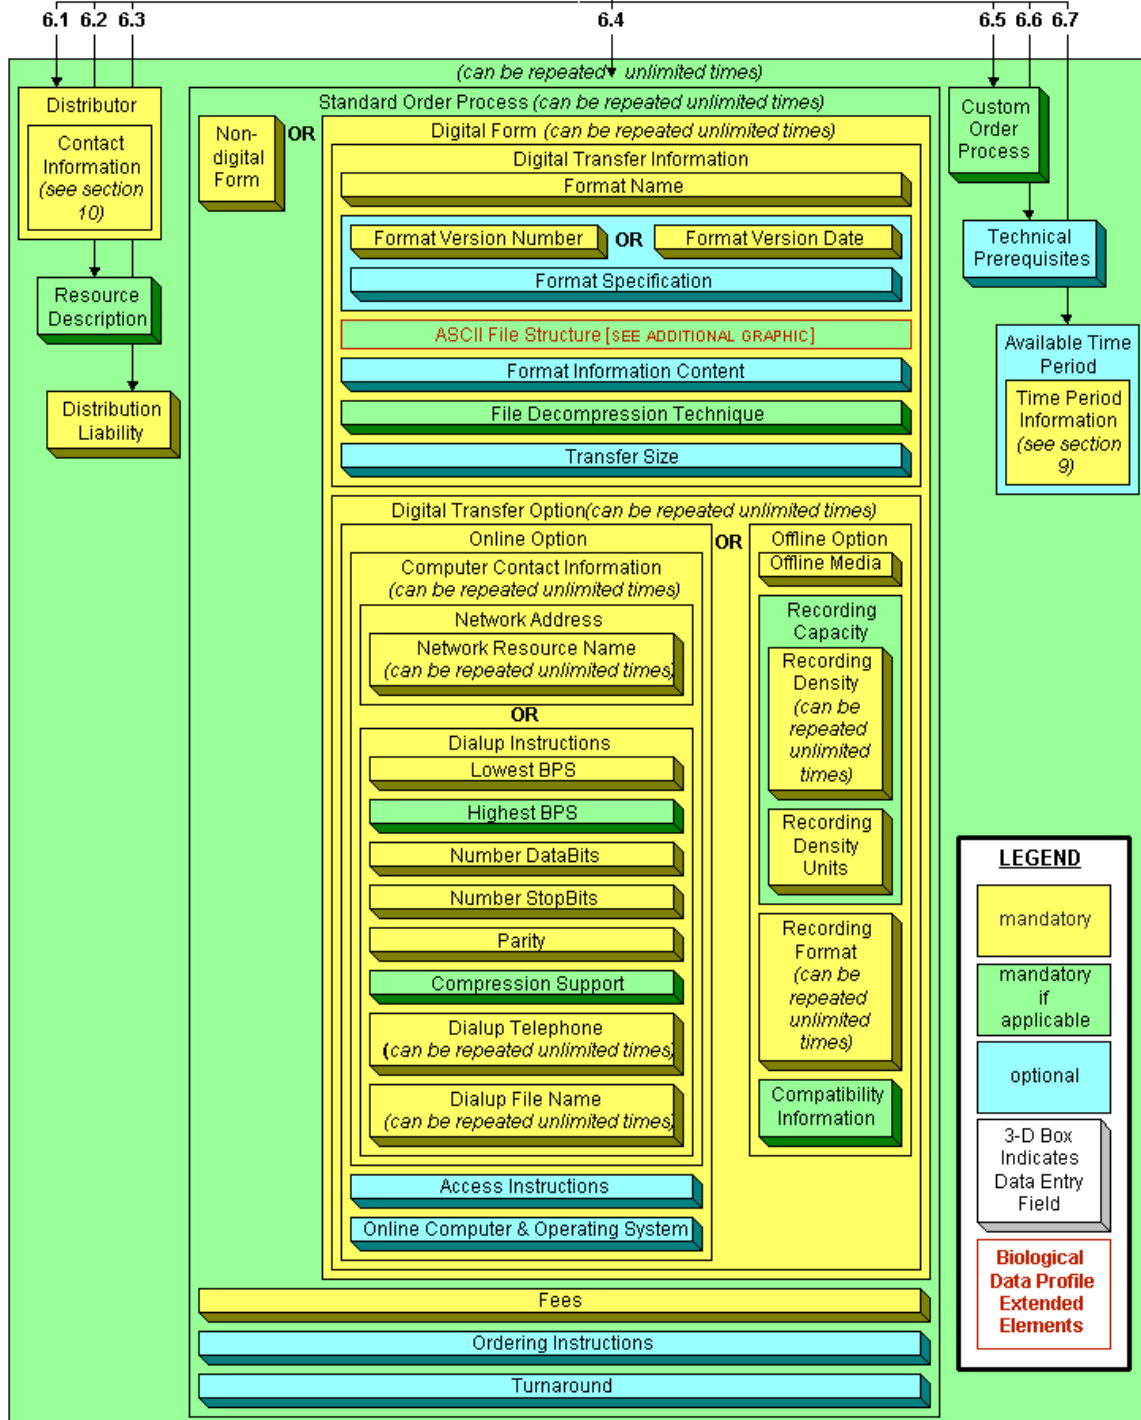

Section 6

Distribution Information

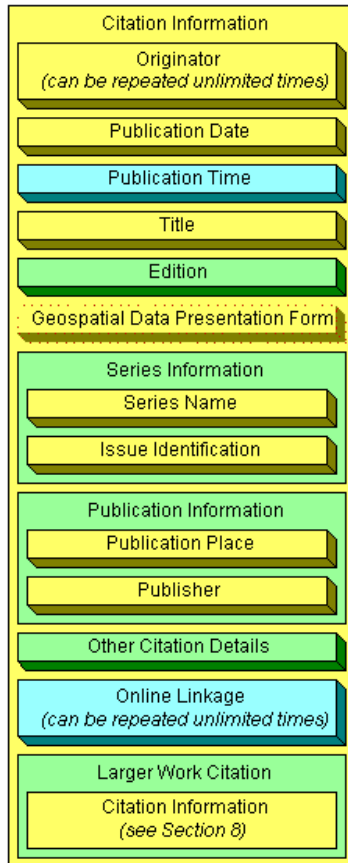

FGDC-STD-001.1-1999
 Content Standard for Digital Geospatial Metadata, 1998
 Part 1: Biological Data Profile, 1999

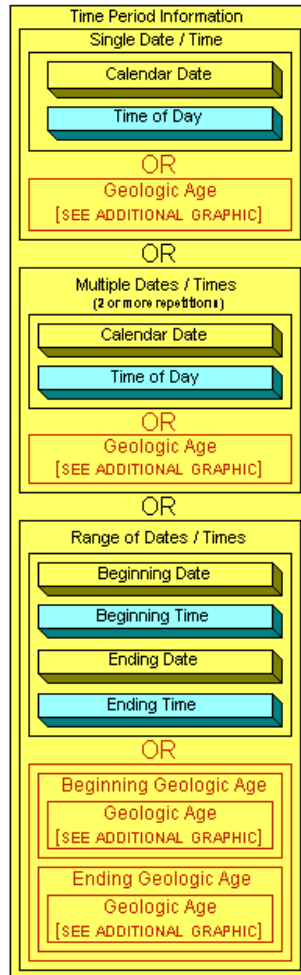

Section 8

Citation Information

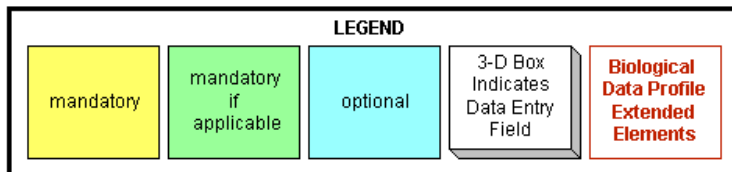

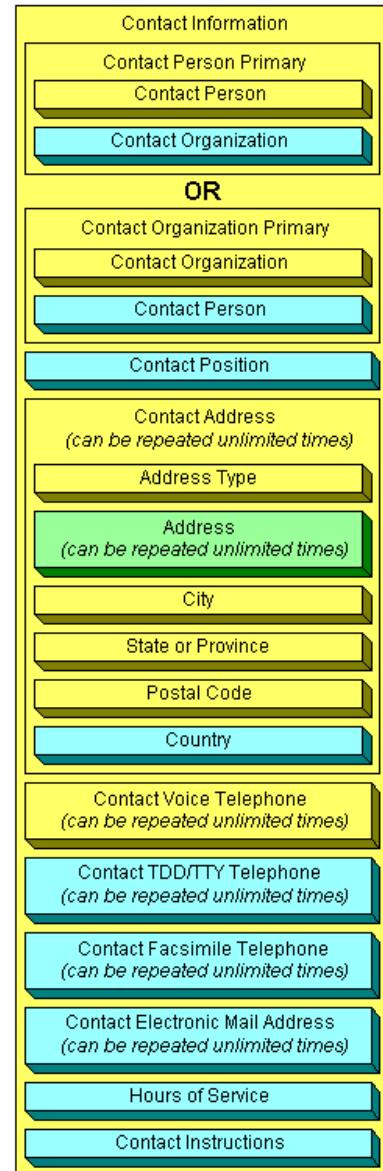

Section 9

Time Period Information

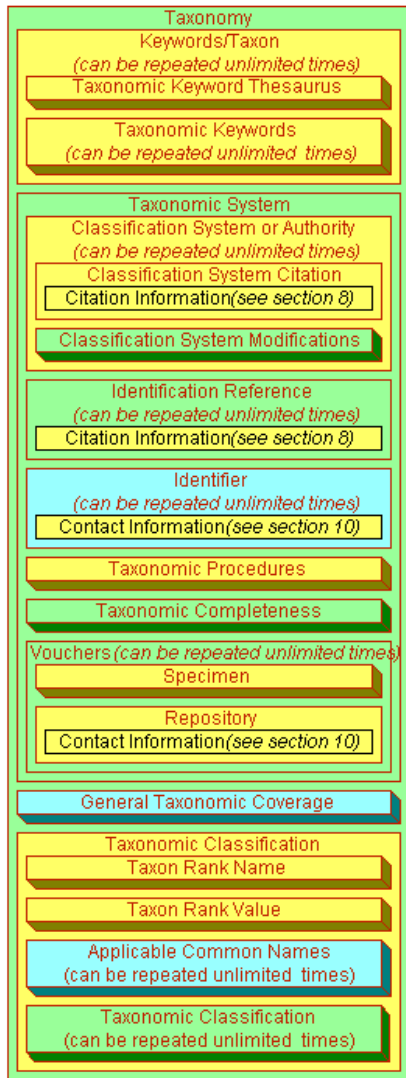

Section 10

Contact Information

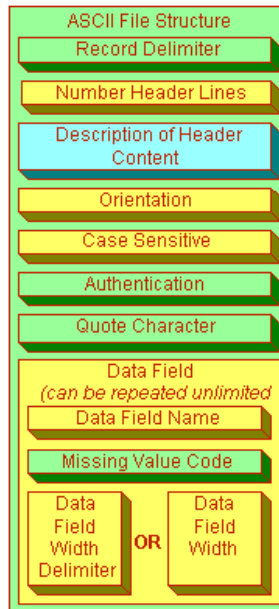

Biological Data Profile Extended Elements

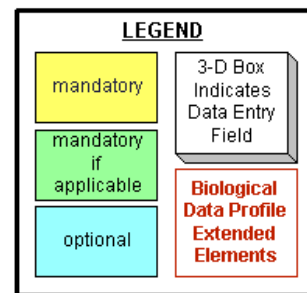

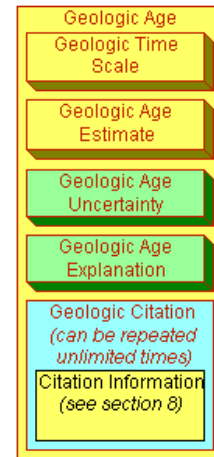

Taxonomy (from Section 1: Identification Information)

ASCII File Structure (from Section 6: Distribution Information)

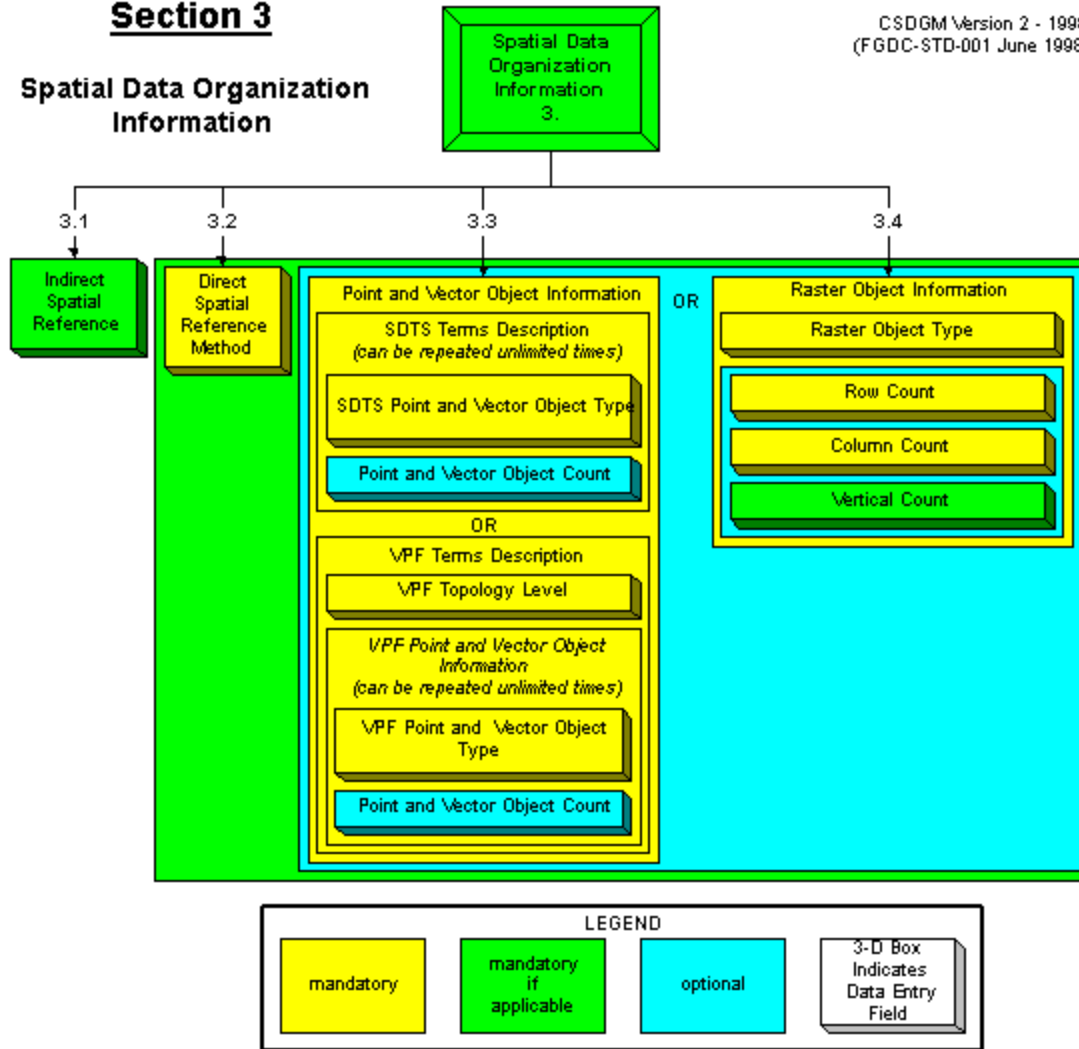

Geologic Age (from Section 9: Time Period Information)

Section 3

Spatial Data Organization Information

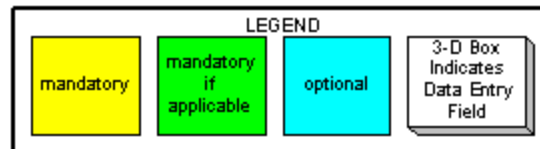

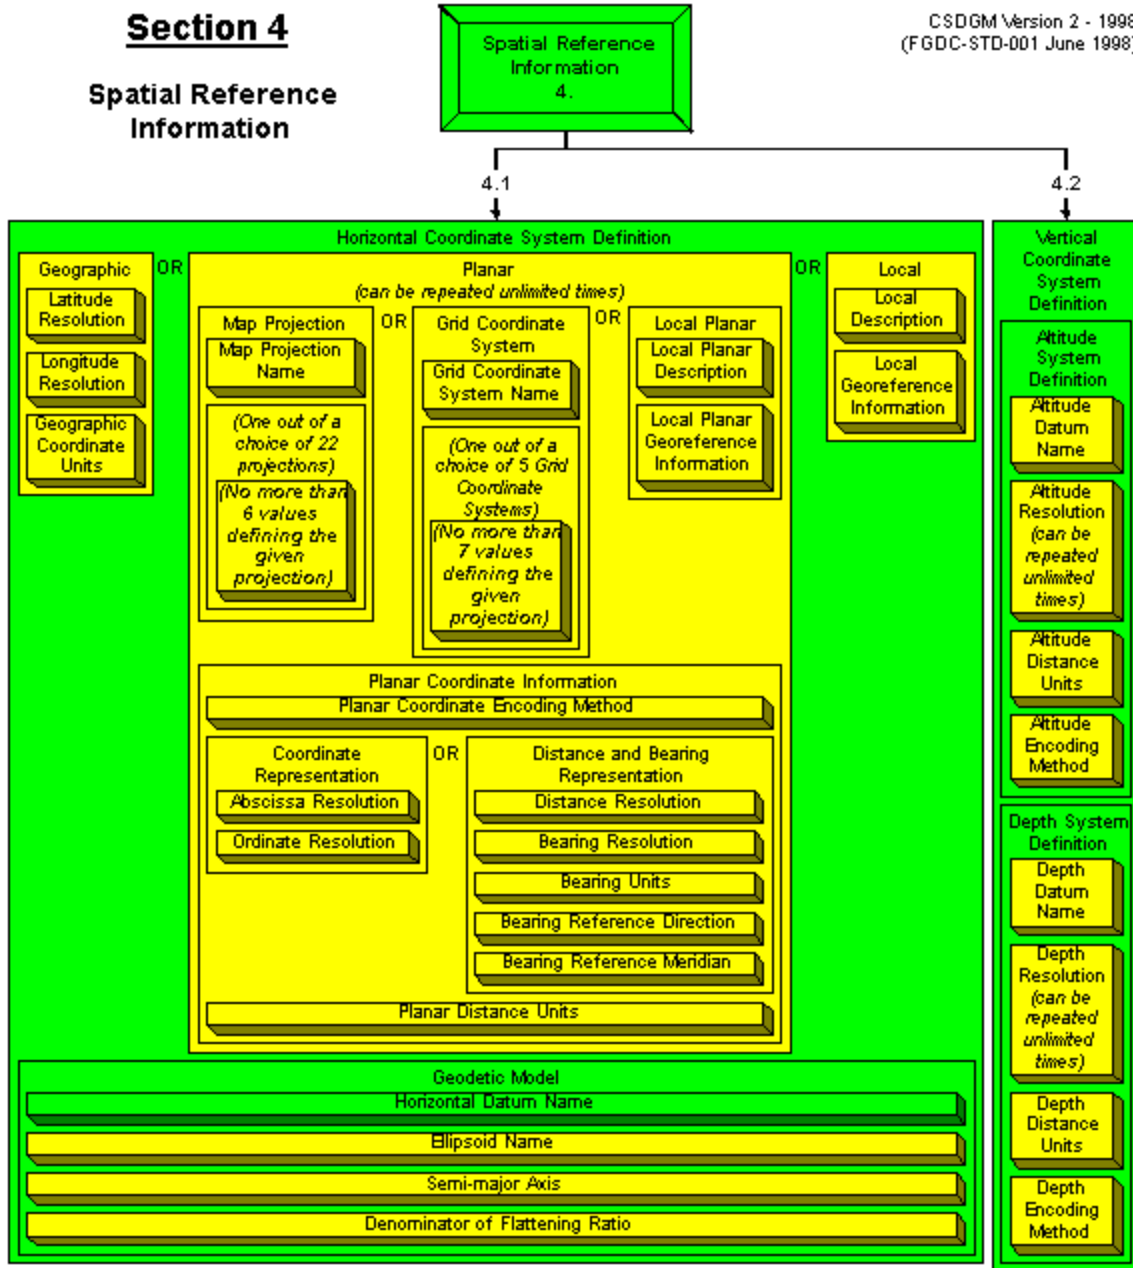

CSDGM Version 2 - 1998
(FGDC-STD-001 June 1998)

Section 4

Spatial Reference Information

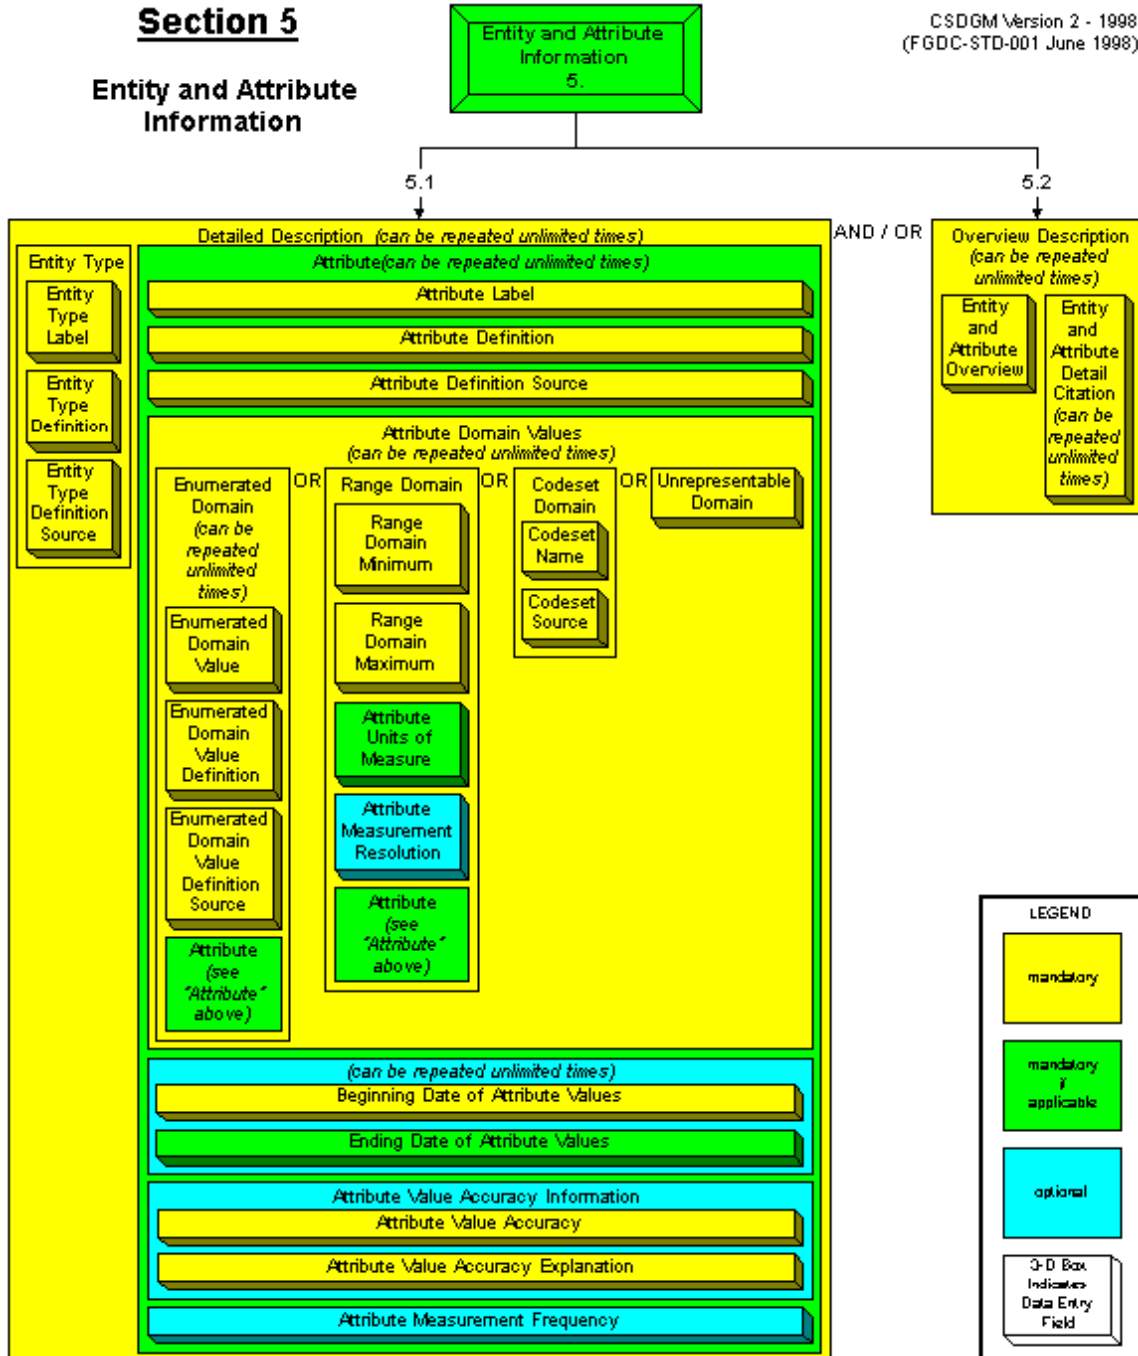

CSDGM Version 2 - 1998
(FGDC-STD-001 June 1998)

Section 5

Entity and Attribute Information

CSDGM Version 2 - 1998
(FGDC-STD-001 June 1998)

Section 7

Metadata Reference Information
